February 20, 1992

Dear State Engineer,

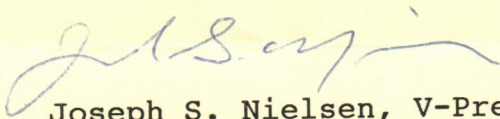

Today we received our Annual Water Assessment Notice for the Little Bear River Distribution System. There still seems to be an error in your billing. Discussions in the past have made us believe that we should only be charge the \$5 minimum. However, we have been billed \$9.13.

Enclosed is a letter outlining our water rights. Please explain why we are charged more than the \$5 minimum.

Also, please describe the section of Utah code authorizing the water assessment.

Thank you.

Sincerely,

Joseph S. Nielsen, V-President
